

# Power Questions

Power is a necessary part of leadership and must be exercised in ways that benefit the organization. Leaders should reflect on three questions about the proper use of power.

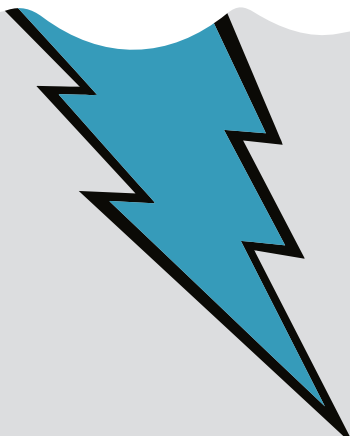

**What good can I do with my power?**

Focus on how you can make a positive difference.

**What harm can I do with my power?**

Consider the consequences of every action.

**How can I keep it real?**

Surround yourself with people who will speak truth to YOUR power.
